THE SPITFIRE ASSOCIATION

"Keeping the memory alive"

Patron; Air Vice-Marshal Mark Skidmore (Ret'd)

INFORMATION BULLETIN 3 – 19, 9 July 2019

The Spitfire Association – Historian

Newly Appointed Association Historian Adam Lunney

As one of the youngest members of the Spitfire Association, I was pleased to be asked to be the Association Historian earlier this year. This is something the Association has been lacking for some time and together we can get things headed in the right direction. My role is not just the history of the organisation but, more importantly, the history of our veteran members (past and present) and the aircraft they flew. My approach is of accuracy and truth. Honouring the service of those who fought for the freedoms that we have today is essential.

If anyone has any relevant document of any type, from WW2 train schedules for the trips they took across continents, service records or logbooks then the Spitfire Association will gladly accept these, preferably in high-res digital form. Don't send any yet, but please be prepared to send them when we are set up to receive them (before the end of the year). I am a historian in my own right, but anything submitted will be to the position of Association Historian, not to me as an individual, and will not be shared on the internet or otherwise used without permission.

Adam signing copies of his latest book "Ready to Strike - the Spitfires and Australians of 453 Squadron over Normandy" at the Spitfire Association luncheon on ANZAC Day.

If you have any questions, historical or otherwise, then feel free to contact me on my mobile until the historian email address is set up. I look forward to giving more presentations (both here and overseas) to our members and sharing the knowledge gained in my research, ensuring that our veterans and their deeds are not forgotten.

Regards

Adam Lunney
